

Terms of Service

Website and commercial enquiry terms for Instant Settlement Payment Gateway.

1. Operator

This website and the Instant Settlement Payment Gateway service are operated by Service Hub Ltd. References to we, us or our mean Service Hub Ltd.

2. Commercial service

The website describes a commercial payment gateway and accelerated settlement service. It is not a consulting, legal, tax, accounting or financial advisory service. A submitted enquiry does not create a merchant account, guarantee approval or form a payment services contract.

3. Eligibility and availability

Payment methods, settlement timing, currencies, destinations and pricing depend on the business model, geography, due diligence, risk review, payment partners, bank rails, cut-off times and an executed agreement. Instant, on-demand and same-day descriptions refer to available service options, not an unconditional promise for every payment.

4. Acceptable use

- Provide accurate and current business information.
- Do not use the site or service for unlawful, deceptive or abusive activity.
- Do not interfere with security, availability, authentication or rate limits.
- Do not submit sensitive cardholder data through the contact form.

Terms of Service - continued

5. Fees, reserves and adjustments

Processing fees, accelerated settlement charges, currency conversion, reserves and other commercial terms are stated in the applicable proposal or merchant agreement. Refunds, disputes, chargebacks, fees and compliance holds may reduce available or future settlement balances.

6. Intellectual property

The website, branding, copy and original assets are owned by or licensed to Service Hub Ltd. You may not reproduce or commercially exploit them without permission except where law permits.

7. Liability

The website is provided for general service information. To the extent allowed by law, Service Hub Ltd. is not liable for losses caused by reliance on incomplete website information, third-party systems, bank delays, network failures or events outside reasonable control. Contractual liability for live payment services is governed by the executed merchant agreement.

8. Changes and contact

We may update these website terms when the service or legal requirements change. Questions: contact@instantsettlementpaymentgateway.com

Effective date: 22 July 2026. This document is provided for operational transparency and has not been presented as lawyer-reviewed advice.
